TOPIC 1.2

Pre-Flight Question

THINK ABOUT IT

You fly Delhi → Paris, take a train to Rome, then fly home from Rome. What kind of ticket is that?

**THINK**

30 seconds alone

**PAIR**

1 minute with a neighbour

**SHARE**

2-3 answers with the class

TOPIC 1.2

Today's Flight Plan

1

1.2.1

One-way, round-trip, open-jaw and circle trips: definitions and characteristics

2

1.2.2

Stopover and layover (transfer): differences and examples

3

1.2.3

Ticketing rules: refundable vs non-refundable, restricted vs non-restricted

4

1.2.4

Ticket pricing categories: Economy, Business and First Class

**BY LANDING, YOU WILL**

- Identify journey types from an itinerary
- Distinguish a stopover from a transfer
- Read basic fare rules for refunds and changes
- Compare cabin classes and their price logic

Pedagogy: Technology-Based Learning

TOPIC 1.2.1

Journey Types: The Four Shapes of Travel

IATA journey codes appear on every fare calculation.

One-Way (OW)

Travel from origin to destination with no return. Example: DEL → DXB.

Round Trip (RT)

Out and back to the same point, priced as two half round-trip fares. DEL → LHR → DEL.

Open-Jaw (OJ)

Like a round trip but with a surface gap at origin or turnaround. DEL → PAR // LON → DEL.

Circle Trip (CT)

A continuous, circuitous route back to origin via different points. BOM → SIN → HKG → BOM.

TOPIC 1.2.1

Spot the Journey: Quick Reference

Look at where the trip starts, turns and ends.

Journey	Returns to origin?	Surface gap?	Example itinerary
One-Way	No	No	BLR → SIN
Round Trip	Yes, same route	No	BOM → DXB → BOM
Single Open-Jaw	Partly	Yes (one gap)	DEL → FRA // MUC → DEL
Double Open-Jaw	No	Yes (two gaps)	DEL → FRA // MUC → BOM
Circle Trip	Yes, different route	No	MAA → KUL → BKK → MAA

TOPIC 1.2.2

Stopover vs Layover (Transfer)

Stopover

- Deliberate break at an intermediate point
- International: more than 24 hours
- Passenger leaves the airport, may stay days
- Often costs extra or has limits in fare rules
- Example: BOM → DXB (3 nights) → LHR

VS

Layover / Transfer

- Short connection between flights
- International: 24 hours or less
- Usually stays airside, no immigration
- Normally included in the fare
- Example: BOM → DXB (3 hrs) → LHR

TOPIC 1.2.2

Stopovers as a Travel Product

Airlines turn the connection point into a destination.

Hub marketing

Carriers promote stopover packages to fill hub hotels and boost tourism (Dubai, Doha, Singapore, Reykjavik).

Fare rules decide

The fare rule states how many stopovers are allowed and any charge per stopover.

Visa check

A stopover means entering the country — always check transit and visa rules.

EXAMPLE

A passenger booked DEL-SIN-SYD asks to spend 2 nights in Singapore. That converts a transfer into a stopover — check whether the fare permits it, whether a surcharge applies, and whether an Indian passport holder needs a Singapore visa.

TOPIC 1.2.3

Refundable vs Non-Refundable

Refundable

- Fare can be refunded if unused
- May carry a cancellation fee
- Higher price, flexible fare families
- Ideal for corporate and uncertain travel

VS

Non-Refundable

- Base fare is lost on cancellation
- Government taxes/airport fees are usually refundable
- Lowest price, promotional fares
- Ideal for firm leisure plans

TOPIC 1.2.3

Restricted vs Non-Restricted: Reading Fare Rules

Restrictions are written into fare rule categories filed by airlines.

Advance Purchase

Must buy X days before departure (e.g., 14-day advance).

Min / Max Stay

Return must be after a minimum stay or before a maximum stay.

Changes & Penalties

Date/route change fees plus any fare difference.

Non-Restricted

Full-flex fares (e.g., full Y or J) — change or refund freely.

TOPIC 1.2.4

Cabin Classes & Their Price Logic

Same aircraft, very different products and prices.

First (F)

Private suites, chauffeur, fine dining. Highest price; few seats; long-haul flagship routes.

Business (J/C)

Lie-flat beds, lounges, priority services. Key revenue driver for FSCs.

Premium Economy (W)

Wider seat, more legroom, better meals. Bridges the gap.

Economy (Y)

Standard seat. Largest cabin, many sub-fares (booking classes).

TOPIC 1.2.4

Why Premium Cabins Matter

A small share of seats can bring a big share of revenue (illustrative).

~10%

of seats on a typical long-haul flight may be premium cabins

~30%+

of that flight's revenue can come from those premium seats

3-5×

a business fare can cost several times an economy fare on the same route

Branded fares (e.g., Saver, Flexi, Comfort Plus) bundle extras within each cabin — a key concept for comparing ticket prices.

TOPIC 1.2

Cabin Crew Activity: Build the Itinerary Online

**PEDAGOGY****Technology-Based Learning****TIME · 10 min****FORMAT · Pairs with a phone or laptop**

- 1 Each pair gets a card: OW, RT, open-jaw or circle trip.
- 2 Search the itinerary on an airline or OTA website (do not book).
- 3 Record: cabin options, cheapest fare, refundability and change fee.
- 4 Share results: which journey type was hardest to search and why?

TOPIC 1.2*Click to reveal each answer*

Pre-Landing Check

Q1

DEL → PAR, then LON → DEL (travel PAR-LON by train) is a...

- A) Round trip
- B) Circle trip
- C) Open-jaw
- D) One-way

ANSWER**C****Q2**

On an international journey, a stopover is a break of...

- A) More than 4 hours
- B) More than 24 hours
- C) More than 2 hours
- D) Any length

ANSWER**B****Q3**

On a non-refundable ticket, what is often still refundable?

- A) Base fare
- B) Airport taxes and fees
- C) Seat charges only
- D) Nothing

ANSWER**B****Q4**

The prime booking code for Economy class is...

- A) F
- B) J
- C) W
- D) Y

ANSWER**D**

SAFE LANDING

Key Takeaways

- ✓ Journey types: OW, RT, open-jaw and circle trip — each priced differently
- ✓ Stopover > 24 hrs (international); transfer ≤ 24 hrs
- ✓ Fare rules define refunds, changes, advance purchase and stay limits
- ✓ Cabins F, J, W, Y carry different products and price levels
