

UNIT 3 · TOPIC 3.4

Open-Jaw and Circle Trips

Journeys that don't come straight back.

B.B.A. Aviation Management · Semester III · Unit 3: Fare Construction (Advanced)
Air Ticketing & Fare Construction (2ACBAM32) · Arun Kumar

TOPIC 3.4

Expedition Preview: Topic Intro

The graphic features a dark teal background with a faint world map. On the left, a white play button icon is centered. To its right is a circular compass rose with a red needle pointing North. The compass face has 'N', 'S', 'E', and 'W' markers, and the text 'TOPIC 3.4' is in the center. A dashed orange line curves from the bottom right of the compass towards the bottom left. At the bottom left, there is a small orange airplane icon on a horizontal line.

TOPIC 3.4

Navigator's Question

THINK ABOUT IT

Fly into Paris, fly home from Rome: cheaper or dearer than two one-way tickets?

**THINK**

30 seconds alone

**PAIR**

1 minute with a neighbour

**SHARE**

2–3 answers with the class

TOPIC 3.4

Route Map for Today

1

3.4.1

Open-jaw tickets: definition, examples and when used

2

3.4.2

Circle trip tickets: definition, examples and use cases

3

3.4.3

Pricing rules

4

3.4.4

How open-jaw and circle trips are priced differently from round trips

COURSE OBJECTIVES

- Identify single and double open-jaws
- Identify a circle trip
- Apply pricing rules using half round-trip fares
- Compare pricing with a normal round trip

Pedagogy: Kinesthetic Learning

TOPIC 3.4.1

Types of Open-Jaw

Turnaround OJ

Gap at the far end: DEL–PAR // ROM–DEL (travel Paris to Rome by train).

Origin OJ

Gap at home end: DEL–LON–BOM (return to a different Indian city).

Double OJ

Gaps at both ends: DEL–PAR // ROM–BOM.

TOPIC 3.4.1

When Travellers Use Open-Jaws

**Multi-city holidays**

Fly into one city, tour overland, fly home from another.

**Business trips**

Meetings in several cities.

**Students**

Arrive in one city, leave from another after a course.

**WHY NOT TWO ONE-WAYS?**

Open-jaws are priced with half round-trip fares, which are usually much cheaper than two separate one-way tickets.

TOPIC 3.4.2

Circle Trips

Return to origin by a different, continuous route.

- Starts and ends at the same point.
- Not a simple out-and-back round trip.
- Priced with half round-trip fares per component.
- Subject to the Circle Trip Minimum (CTM) check.

CIRCLE TRIP (illustrative)

```
BOM -> SIN  
SIN -> HKG  
HKG -> BOM
```

```
COMPONENT 1  BOM-SIN  1/2RT  
COMPONENT 2  SIN-HKG-BOM 1/2RT
```

```
// then check CTM
```

TOPIC 3.4.2

Circle Trip Use Cases

**Asia Holiday**

BOM-BKK-SIN-BOM.

**Sales Tour**

DEL-DXB-DOH-DEL.

**Family Visits**

MAA-SIN-KUL-MAA.

**Pilgrimage**

Multi-city religious circuits.

TOPIC 3.4.3

Pricing Rules Summary

Journey	Fares used	Key check
Round trip	Two ½RT fares (often same)	Same route both ways
Open-jaw	½RT fare per component	Surface sector not ticketed
Circle trip	½RT fare per component	CTM: total ≥ highest RT from origin
One-way	OW fare	HIP / BHC checks

TOPIC 3.4.4

Round Trip vs Open-Jaw Pricing

Round Trip DEL-LON-DEL

- ½RT DEL-LON NUC 500
- ½RT LON-DEL NUC 500 (priced from DEL)
- Total NUC 1,000

VS

Open-Jaw DEL-LON // PAR-DEL

- ½RT DEL-LON NUC 500
- ½RT DEL-PAR NUC 540 (inbound)
- Total NUC 1,040
- Surface LON-PAR by train

TOPIC 3.4.4

Price Comparison (Illustrative)

NUC 1,040

open-jaw with ½RT fares

NUC 1,380

two separate one-way fares

25%

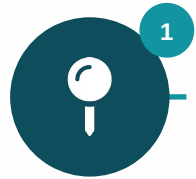

saving by pricing correctly

Correct construction saves the passenger money and protects the agency from ADMs.

TOPIC 3.4.4

Hands-On Method

**Pin the Map**

Place city pins

**Draw Route**

Mark flown and surface sectors

**Label**

RT, OJ or CT?

**Price**

Add ½RT fares

**Check**

Apply CTM if circle

TOPIC 3.4

Navigation Exercise: Map & String Journeys

PEDAGOGY

Kinesthetic Learning

TIME · 12 min

FORMAT · Groups of 4 with map, pins,
string

1

Each group gets 4 itinerary cards.

2

Pin cities and connect flights with string; use dotted tape for surface sectors.

3

Classify each: RT, single OJ, double OJ or circle trip.

4

Price one itinerary using the fare sheet provided.

Position Check Quiz

Q1**DEL-PAR, surface to ROM, ROM-DEL is a...**

- A) Round trip
- B) Turnaround open-jaw
- C) Circle trip
- D) One-way

ANSWER

B**Q2****BOM-SIN-HKG-BOM is a...**

- A) Circle trip
- B) Open-jaw
- C) One-way
- D) RTW

ANSWER

A**Q3****Open-jaws are priced using...**

- A) OW fares
- B) ½RT fares
- C) Group fares
- D) Taxes

ANSWER

B**Q4****The minimum check for circle trips is...**

- A) HIP
- B) CTM
- C) MPM
- D) BSR

ANSWER

B

DESTINATION REACHED

Key Takeaways

- ✓ Open-jaw = gap at turnaround, origin, or both
- ✓ Circle trip = continuous route back to origin
- ✓ Both use half round-trip fares per component
- ✓ Circle trips must pass the CTM check
