4.1.1

What Is an Air Ticket?

A contract

Evidence of the contract of carriage between passenger and airline.

Proof of payment

Shows the fare paid and the right to travel.

Coupons

One flight coupon per flight segment.

DEFINITION

An air ticket is the document (today electronic) issued by or on behalf of a carrier that entitles the named passenger to carriage on the flights shown, subject to the fare rules and conditions of carriage.

4.1.1

Types of Tickets

Paper Ticket

Printed coupons; phased out by IATA in 2008. Now rare.

E-Ticket

Stored in the airline database; passenger gets an itinerary receipt.

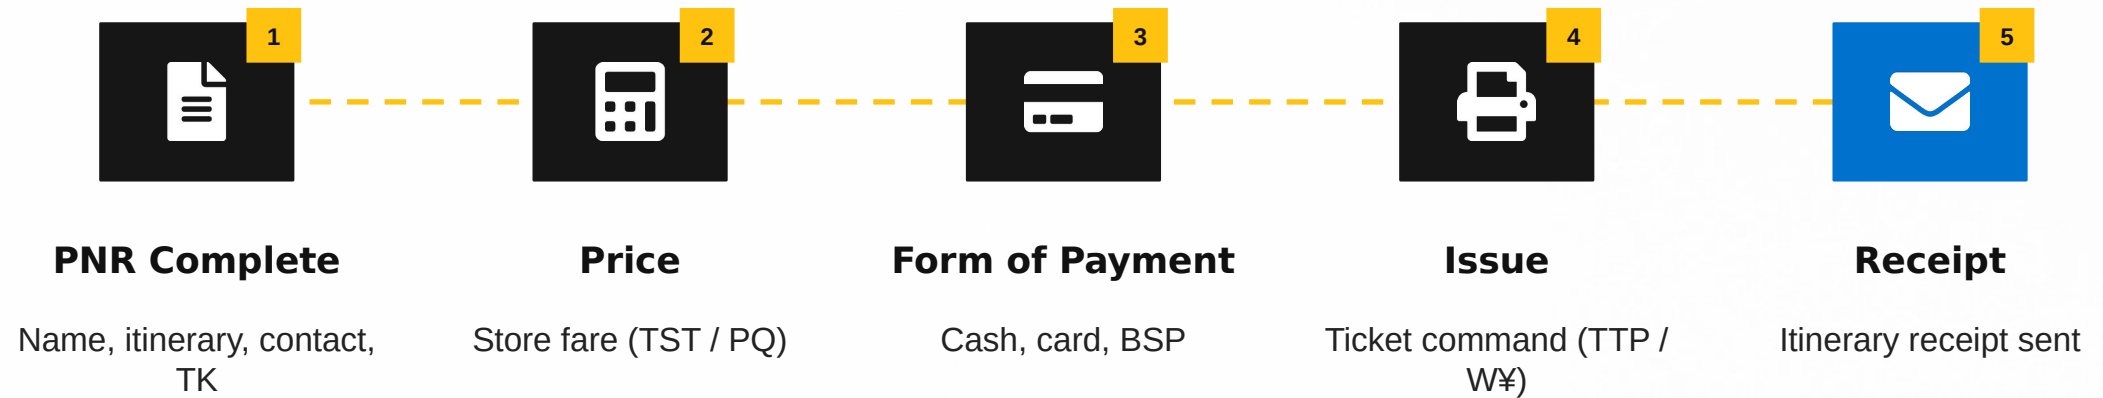

Interline E-Ticket

One e-ticket covering flights of several airlines (needs IET agreement).

4.1.2

How a Ticket Is Issued

4.1.2

Issuing Platforms

GDS

Amadeus, Sabre, Travelport for IATA agents.

Airline PSS

Airline's own reservations and ticketing (call centre, airport).

Website / App

Direct airline IBE issues automatically.

NDC / B2B Portals

Agents book airline offers directly.

Booking Confirmation Status Codes

Code	Meaning
HK	Holding confirmed
HL	Holding waitlisted
UC / UN	Unable to confirm / flight not operating
TK	Schedule change — confirmed at new time
KK	Confirmed by airline (awaiting action)

4.1.3

Confirmation ≠ Ticket

Confirmed booking

Seat held in the PNR (HK).

Ticketing time limit

Unticketed bookings are cancelled when the TTL expires.

Ticketed

13-digit number issued, payment taken.

COMMON MISTAKE

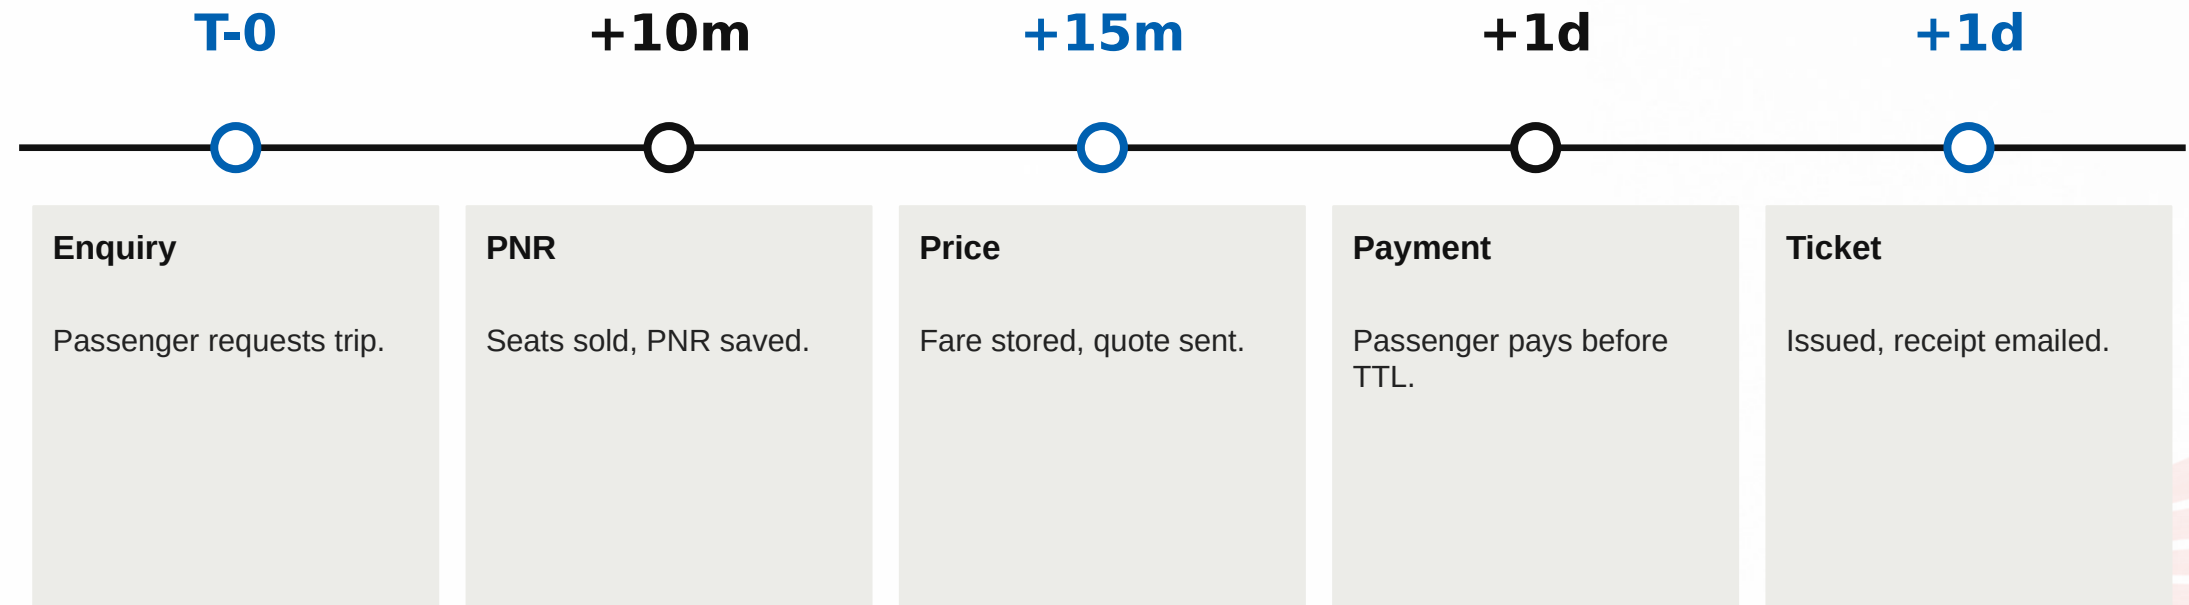

Telling a passenger “you’re confirmed” before ticketing. If the TTL passes, the airline cancels the seats — and the passenger arrives with no ticket.

4.1.4

Reservation to Ticket: Timeline

A typical agency booking.
