4.11.3

Compliance Checklist at Issue

Combination	Cat 10 permits combination
Advance purchase	Ticketed within Cat 5 deadline
Stay rules	Min/max stay met across journey
Endorsements	Correct restrictions printed

Issue Workflow

4.11.4

Discount + Full Fare: Why Combine?

Fixed outbound

Passenger knows departure date — use cheap Q fare.

Uncertain return

Flexible Y fare on the return.

Balanced cost

Cheaper than full Y round trip, more flexible than Q round trip.

CAUTION

Some discount fares only combine with fares of the same type. If Cat 10 says “end-on-end only” or “not combinable”, you cannot mix them.

Price Comparison (Illustrative)

Q round trip (both non-ref)

NUC 1,280

Q out + Y back (flexible return)

NUC 1,800
